

CAR LIFTS

Instantly Double Your Parking Space

**space saving
smart choice**

Adding a car lift to the garage allows you the opportunity to keep your prized vehicles at home. Instantly double your parking space without the cost of a major renovation or expensive off-site storage. Great for a summer car or just to accommodate two vehicles in one parking space. Lifts are ideal for residential applications and are installed within one day.

comes with 4 casters
2 approach ramps
4 drip trays
1 jack tray

HIGH QUALITY 4 POST LIFT

store a second vehicle in a 1 car garage

OFF SEASON STORAGE

POWDER COAT FINISH

1 day install

Will A Car Lift Fit In My Garage?

Every garage is different and there are 3 factors that will determine if a car lift will fit: Vehicle heights, ceiling height and garage door track setup.

If you can park your vehicle in the garage then you have enough floor space for a car lift. The last thing is the garage door. You may need a high lift conversion for your door so it opens at a higher level within your garage, Contact us. In most cases, we can tell you over the phone if you can fit a car lift in your garage.
