MOTORIZED OVERHEAD RACKS

Specialty Storage Solutions

storage for seasonal items

Our motorized overhead storage racks bring effortless organization to your garage, combining convenience with heavy-duty performance. Available in a range of sizes to suit any space, each unit features a robust 400 lbs weight capacity and integrated side netting to keep items secure during operation. A built-in safety stop provides added peace of mind, while the wireless remote allows you to raise and lower the rack with ease, making it simple to store and access large items without the strain.
